

PREASSESSMENT SCREENING OIL SPILL REPORT FORM

ERTS# 721193

Date of Incident: 03/04/2023

Potential Liable Party: Robert Skarperud

Product Spilled: Diesel, Lube Oil

Spill Source: P/C *Dan Cameron*

Oil Spill Size Estimate: 31 Gallons Total (30 Diesel, 1 Lube Oil)

Water Body Affected: Puget Sound - Budd Inlet

Ecology Region: SWRO

County: Thurston

Nearest City: Olympia

Location of Spill: Swantown Marina, 1022 Marine Dr NE, Olympia

Cause: Structural/Tank Failure

Ecology Responder: Chelsea Krimme

Incident Summary: On March 4, 2023, the P/C *Dan Cameron* was identified as the source of a sheen in Swantown Marina, Olympia. The Marina deployed sorbent materials around the vessel, which immediately became saturated. Sorbents continued to be replaced periodically as Ecology Responders worked with the vessel owner, who was in Bend, OR. Responders took samples from around the vessel and from the vessel's bilge, which contained approximately one inch of an oily red mixture. Analysis confirmed that the matching oil samples were primarily diesel fuel which had been discharged by the vessel bilge pump. Based on sorbent weight, an estimated 30 gallons of diesel had been recovered from Swantown Marina in the first 24 hours. A more accurate estimate of total oil release could not be determined based on the limited information available.
