PROJECT OVERVIEW
CONNOR CREEK FLOODING

Background:

1. Conner Creek flooding is a persistent and worsening problem for North Beach communities.
2. Grays Harbor County recognizes the need to address community and transportation impacts caused by Conner Creek flooding with fundable, implementable solutions.
3. Grays Harbor County's "Connor Creek Flooding Project" is a pathway to securing future funding for implementable, doable, community-driven flood hazard reduction projects.

Project (Phase I and II):

Phase I – "Reconnaissance"

- Engage stakeholders.
- Compile studies, articles, reports, pictures, plans.
- Document flooding frequency, severity, impacts.
- Produce findings, rationale to fund investment plan.

Phase II – "Investment Plan, Funding Strategy"

- Develop investment plan, modelled after the [2019 Satsop River Investment Plan](#).
 - Shared community goals.
 - Sequenced, prioritized investment actions.
- Goal is flood hazard reduction that works toward North Beach community interests (not against).
- Investment plan is key to funding Phase III ("Construction").
